Profile

Senior Product/Platform Engineer with 10+ years of experience building scalable full-stack web applications. Strong background in modern JavaScript ecosystems, and micro-service systems.

Experience

Fullstack Engineer Web— smartclip (AdTech)

Berlin · Full-Time · Jan 2020 – May 2026

- Built and scaled ~15 production microservices and frontend applications using React, Node.js, and TypeScript across a 6-year tenure in AdTech.
- Built and maintained a shared UI design system adopted across 10+ internal products, improving consistency and reducing duplicated frontend effort.
- Owned and evolved the frontend testing architecture (Unit, Integration, E2E, Visual Regression), maintaining 100% coverage over 6 years through multiple framework and tooling migrations.

Frontend Engineer Web— INTERAUTOMATION GmbH (IoT)

Berlin · Full-Time · Jan 2016 – Dec 2019

- Built web interfaces and data visualization tools for industrial and monitoring systems.
- Built an online device monitoring (logging) platform with a PHP API and React UI.

Interactive Designer (Physical UI) — Pluslab

Halle(Saale) · Freelance · Jan 2014 – Dec 2015

- Audio Guide (Cordova / React / iOS)
- Designed+built interactive museum installations (firmware, electronics, and physical interface systems)
